

No Job too **Big** or too Small

Molson Coors “Big Move”

Challenger recently successfully handled one of the largest over-the-road convoys ever performed in Ontario. This partner engineered move consisted of six massive beer vats, each measuring 150-ft in length and towering 27-ft off the ground (on their sides).

And what is involved in a move of this complexity, besides detailed logistical strategies and planning, a fleet of specialized equipment and a highly skilled experienced team of experts?

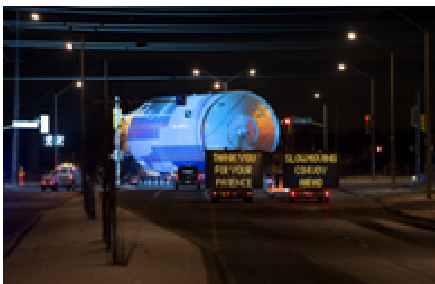

At Hamilton Port. Ready to go.

Here are the facts...

- 20: Police officers needed to guide the convoy
- 15: Police officers needed for additional traffic control
- 20: Utility vehicles of various service providers, travelling with the convoy at all times
- 5: Municipalities the convoy travels through: Hamilton, Halton, Peel, York, Toronto
- 108: Kilometres from Hamilton port to Molson Coors Brewery
- 250: plus Stop lights affected
- 2500: plus Service wires lifted or taken down to make way for the convoy
- 6: Beer tanks with capacity to hold 8.4 million bottles of beer

One of the largest over-the-road convoys ever performed in Ontario.

20 different service providers, with phone, cable and fibre optics, were required to move their wires.

Challenger can handle ALL your global transportation, distribution and warehousing requirements. Call Today!
